Professional Summary:-

Software Engineer with hands-on experience in building full-stack web and Android applications using ASP.NET Core, Angular, Spring Boot, Java, C#, SQL Server, and MySQL. Skilled in developing RESTful APIs, implementing JWT authentication, designing database-driven applications, and following Clean Architecture principles. Passionate about building scalable software solutions and continuously learning modern technologies.

Education:-

- **Graduation in B.Tech (RTU,Kota)** | Jaipur Engineering College and Research Centre, Jaipur | 7.08 CGPA
- **Senior Secondary, XII (CBSE)** | Central Academy Senior Sec. School, Udaipur | 61.4%
- **Secondary, X (CBSE)** | Central Academy Senior Sec. School, Udaipur | 79.8%

Technical Skills:-

- **Programming Languages:** Java, Python, C#, Kotlin, Javascript, SQL, XML
- **Tools:** Git, GitHub, Docker, Microsoft Visual Studio, Android Studio, VS Code, Figma
- **Android Development:** Android SDK, MVVM, RecyclerView, Retrofit, REST APIs, Picasso, MediaPlayer
- **Backend Development:** Spring Boot, Spring Data JPA, Hibernate, Spring Security, JWT Authentication, Swagger, Nodejs, ASP.NET Core, Django
- **Database:** SQL Server, MySQL, Firebase, MongoDB, Room Database
- **Frontend:** Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, Thymeleaf
- **Soft & Professional Skills:** Communication Skills, Documentation, Analytical, Quick Learner, Adaptable, Work Oriented, Accountability

Projects:-

Employee Management System | <https://github.com/Azhaan24/Employee-Management-System.git>

Java, Spring Boot, Spring Security, MySQL, Thymeleaf

- Developed a full-stack Employee Management System using Spring Boot, Spring Security, MySQL, and Thymeleaf with secure authentication and CRUD operations.
- Implemented REST APIs, employee search, pagination, file uploads, email notifications, and PDF/Excel export using Apache POI and OpenPDF.

FastFood Ordering System | <https://github.com/Azhaan24/FastFood-Ordering-System.git>

ASP.NET Core 10, Angular, SQL Server, Entity Framework Core, JWT Authentication, Docker

- Developed a full-stack Fast Food Ordering System using ASP.NET Core 10 Web API, Angular, SQL Server, and Entity Framework Core following Clean Architecture, implementing JWT Authentication, ASP.NET Identity, role-based authorization, RESTful APIs, CRUD operations, shopping cart, order management, reviews, image uploads, Swagger, API Versioning, Docker, and a responsive Angular UI.

Weather App | <https://github.com/Azhaan24/Weather-App.git>

Java, Android Studio, OpenWeather API

- Built an Android weather application that displays real-time weather information using API integration and a responsive user interface.

Quiz Game | <https://github.com/Azhaan24/Quiz-Game.git>

Java, Android Studio, Firebase Authentication, Firestore

- Developed an Android quiz application with Google Sign-In, category selection, timer-based gameplay, score tracking, and Firebase integration.

Other Courses and Certifications:-

Android App Development | **45-Day Full Stack Web Development Internship & Training using Django** |

UI/UX Design | **Spring Boot Development** | **Java Assessment** | **Business Analytics with Excel**

Extra Curricular Activities and Achievements:-

- Won gold medal in Interyear as well as Interbranch Basketball tournament
- Basketball Coordinator at JECRC Foundation, Jaipur
- Coordinator in Renaissance (College Fest)
